

6 November 2024

Dear Parent / Guardian

**‘Supporting your child as they navigate life online’ Presentation & Support Expo
Tuesday 19 November 2024 5-6pm**

We are delighted to confirm that we will be holding the above event here at Maiden Erlegh School in Reading.

The event will include a presentation on “Supporting your child as they navigate life online” and the Support Expo will provide information on help available to local families from local charities.

The presentation will guide you and your child to build awareness of life online, including gaming and social media. We understand how difficult it can be to provide guidance and advice to your child once they have their own phone and are able to access the “online world.” We are hopeful that the information shared at this event will be of help.

Our Support Expo will have a variety of stalls from local charities that can provide support to families in need. This will include charities such as the Cowshed, Samaritans, and Berkshire Women’s Aid, among others.

Our Safeguarding and Outreach Worker Louise Denton and I will be in attendance to offer our services to any families who may need this.

We want to open this event to our local community as well as our school community, so please feel free to share this letter with family or friends that may benefit from attending.

We look forward to seeing you on 19 November at what we hope will be a well-attended and worthwhile event.

If you have any questions, please do not hesitate to contact me, via our school reception.

Yours sincerely

Miss B Davies
Assistant Headteacher – Safeguarding and Welfare
